A newsletter for parents, students, and the RESE community.....April 3, 2012

On March 21st, our Kindergarten, First and Second grade students attended a convocation about animals and the environment. Through an engaging presentation, our students discovered many ways we as humans affect the lives of thousands of species all over the world. We discussed why dumping garbage in the ocean thousands of miles away can trigger a chain of events that may eventually impact the food we eat and the products we use.

Appropriate School Dress

Now that spring has arrived students and parents are reminded that certain types of clothing are not appropriate for school dress. Bare shoulders, midriffs, and short shorts are more appropriate for after school. Students who arrive dressed inappropriately will be given the opportunity to call home for other clothing or choose clothing from our supply of clean clothing. While there is no policy banning flip flops, they do tend to break and tear. More substantial footwear such as athletic shoes is a better choice for school.
